Switch for Public Transport Systems

See below:
Approvals and Compliances

## Description

- Momentary switch available in version Standard or as custom specific variant

## Characteristics

- Illumination housing and actuator made of plastic material, cover plate made of aluminium
- Assembly by screws with nuts
- Four-conductor cable, optional male tabs on housing
- Variable color design of the bezel and the cover plate, customer specific laser lettering
- high lifetime with 10 million actuations

Excellent tactile feeling

- Illumination for switching status recognition (Viewing angle $180^{\circ}$ )
- Low mounting depth with angled cable version

| Shock Resistance | $30 / 6 \mathrm{~g} / \mathrm{ms}$ (DIN 60068-2-27) , $3 / 5 \mathrm{~g} /$ ms (3 vertically and horizontally/ 5 lengthwise, DIN 61373) |  |  |
| Mounting screw torque | 0,8-1.0Nm |  |  |
| Lifetime | $>10$ million actuations |  |  |

## Approvals and Compliances

Detailed information on product approvals, code requirements, usage instructions and detailed test conditions can be looked up in Details about Approvals

SCHURTER products are designed for use in industrial environments. They have approvals from independent testing bodies according to national and international standards. Products with specific characteristics and requirements such as required in the automotive sector according to IATF 16949, medical technology according to ISO 13485 or in the aerospace industry can be offered exclusively with customer-specific, individual agreements by SCHURTER.

## Application standards

| Identification | Details | Initiator |
| RoHS | RoHS | SCHURTER AG |
| REACH | REACH | SCHURTER AG |

## Description

Directive RoHS 2011/65/EU, Amendment (EU) 2015/863
On 1 June 2007, Regulation (EC) No 1907/2006 on the Registration, Evaluation, Authorization and Restriction of Chemicals 1 (abbreviated as "REACH") entered into force.

## Dimension [mm]

PTS version with angled cable
Other form of cable outlet on request

## Dimension

[Bohrbilder]

Assembly Instructions

Turn the bezel in clockwise direction until it snaps
Insert bezel in open area

Disassembly

Pull disassembly tool

Diagrams
PTS NO

Turn the bezel with disassembly tool again for $15^{\circ}$ counterclockwise and remove the bezel
